PRIVACY AND CONSENT

Privacy at Nimkee Nupigawagan

- When you are receiving care from any of the programs or services at Nimkee Nupigawagan Healing Centre (NNHC), personal information needs to be collected from you by counsellors, health care practitioners and other healthcare team members.
- We collect, use and share this information when required or permitted by law; for example, according to the Personal Health Information and Protection Act (PHIPA).
- Sometimes your family, friends, or someone who has the legal right to represent you, may also give us personal information about you.
- We may also need to get personal information from other sources, such as copies of your previous health records from other hospitals or from your family physician, or we may confirm your identity and Ontario Health Card) with the Ministry of Health.

Nimkee Nupigawagan is ethically committed and legally required, to protect your personal information.

We are committed and legally required by *Personal Health and Information and Protection Act (PHIPA)* to protect your privacy. We use and share your information for authorized purposes and must store it securely to protect it. Our staff are trained on how to protect your privacy and to keep your personal information confidential at all times.

Who can look at, use, and share my personal information?

Someone who "**needs to know**" your information to provide care and other care-related services, is permitted to look at your personal information (like a counsellor or a nurse). They may use and share it for the following reasons:

- To assist with your ongoing care and services.
- To contact you or your family about your medical care when appropriate.
- To help us improve the quality of your care and services.
- Research (when authorized).
- Teaching and education (of counsellors and nurses, for example).
- To see if you qualify for different benefits or services and to arrange payment.

Your personal information may also be shared with other people with your consent. However, we must provide it without your consent in some circumstances. These include:

- To respond to a court order or subpoena
- To comply with an insurance investigation by another government body e.g. insurance
- To report or provide information to investigate a suspicion that a child or an older adult is being abused or neglected
- To report intention of self-harm or harm to another person

If you have any questions or concerns about the limits of confidentiality, you are encouraged to speak with your counsellor, health care provider, or the Executive Director. Our program is committed to being as open as possible about our responsibilities to both you and the community.

REQUEST FOR EDUCATION RECORDS

In order to better understand the education needs of our participants we are asking that a signed consent form along with an official school transcript (on green paper as seen in the photo below) are included with your intake package. Your last school attended can provide you with a copy of your transcript upon request. This will give us an opportunity to prepare an individualized education program for participants.

We also ask that you provide us with some areas of interest to look into courses and programs available for you while you are at Nimkee Nupigawagan Healing Centre.

Subjects of Interest (Things you enjoy learning about):

NIMKEE NUPIGAWAGAN HEALING CENTRE

LAND BASED ACTIVITIES NIMKEE NUPIGAWAGAN INFORMED CONSENT

All Nimkee Nupigawagan employees are certified in Standard First Aid and CPR C and training related to providing programs and services for participants. There is an exhaustive list of mandatory training that employees complete, and each employee has vulnerable sector checks. In addition, all employees have been trained in new protocols, policies and standards related to COVID-19 based on provincial legislation. Our employees are carefully selected based on their past experiences, skills, enthusiasm, and ability to work with indigenous youth. They also participate in a mandatory, pre- camp training program covering topics such as leadership, motivation, teamwork, parent feedback, policies, and procedures, as well as specifics about programs and management expectations. There will be trained lifeguards within our program.

The purpose of this letter is to outline and secure your informed consent for your youth to participate in. We request your immediate attention to this letter, as the program cannot commence until each consent form is returned.

The off-site camp and outdoor trips introduce participants to a variety of environments and conditions. This opportunity will give participants an experience in swimming at pools, in lakes; canoeing, hiking, cooking, and cycling expeditions, for example.

The safety of our participants is the first priority in planning any outdoor activity. In addition, we ensure that the challenges presented by the excursion match the skill level of the participant. However, as with any outdoor activity, there are some inherent risks that each parent or guardian should be aware of, including but not limited to the following:

- our trips can take us "off the beaten path" with no immediate access to emergency response.
- the weather can be unpredictable, at times, and severe;
- the bays and lakes are often cold;
- participants must sometimes rely upon and trust their lives to technical equipment such as certified ropes & safety gear, life jackets, etc.
- wild animals may be present in some of the areas in which wetravel.

As a consequence of Nimkee Nupigawagan land-based program, each parent, guardian and participant must understand that participation in an off-site camp may result in an elevated risk of injury when compared to participation in a passive activity. The nature of the trip may prevent the participants from being under the direct supervision of staff at all times.

If you are satisfied that you fully understand the nature of Nimkee Nupigawagan's Land Based Program and the off-site camps, please complete the attached consent form and submit with your registration package and email to <u>continouscare@nimkee.org</u>. If you have any questions or concerns, please contact Leroy or Dave at Nimkee Nupigawagan Healing Centre.

NIMKEE NUPIGAWAGAN HEALING CENTRE

NIMKEE NUPIGAWAGAN

I understand that outdoor activities may present to my youth a wide variety of risks, hazards and conditions, not all of them easily foreseeable, which could result in loss, damage or injury to my youth. These conditions may include, but are not limited to, steep and uneven terrain, changeable weather conditions, including heat, cold and wetness, remoteness from normal medical services, evacuation difficulties, darkness, animal and plant life, the use of assorted vehicles and including various types of transportation like canoes, boats, equipment use and camping and cooking activities. I understand that the nature of some of the activities may mean an increase in incidents.

I understand it is my responsibility to determine, taking into consideration the risks, my youth's behavioural characteristics, physical health, and abilities, whether my youth should be allowed to participate in the Land Based Program, which is essential part of the program.

I understand that my youth will be expected to uphold the standards of behaviour expected of all participants in any land-based program, and that participants will be expected to listen to and honour any request, suggestion, advice or rule given by program staff, and other supervising adults on the activity and including without limitation, the request that my youth no longer participate in the activity, with the understanding that this is in the best interests of all participants. Participants will be expected to act with responsibility and care for themselves and for others on the activity. Participants are expected not to leave any land-based programming without consent and informing program staff. If there is a breach of any of these rules and standards, Nimkee Nupigawagan may require my youth to withdraw from the remainder of the program.

I have no physical impediments that will affect their participation in hiking, walking, canoeing, swimming, and other outdoor cultural experiences and games and field trips.

I give permission for program staff to administer first aid treatment and acknowledge that I will be responsible for any medical or other charges in connection with my treatment.

I understand that I have been made fully aware of the various risks involved with each land-based activity and that, upon my youth's participation therein, I will have decided that I am prepared to allow my youth to participate in both the activity, and in aspects of the activity, including transportation to and from the activity. I also confirm that I have and will have spoken with my youth about these risks and expectations, and that I am confident that they will understand them.

My signature below indicates that I have read and understood this information and consent to:

Nimkee requires medical information about you to ensure a safe stay in residence.

We request that you have a medical report completed by your usual primary care provider. A *primary care provider* is an advanced health care practitioner who knows you well. You may know them as a family doctor, a family physician, a general practitioner, or a nurse practitioner. You may see them at a family health team, a northern nursing station, or a walk-in clinic that you go to regularly.

Do you have a primary care provider?

□ **YES**. Contact the office of your primary care provider and let them know you need to have a medical assessment within 30 days of your expected arrival date. Take the 4-page *medical report* to your appointment. Return it to Nimkee on completion.

NO. Fill out the **4-page** *medical* <u>self</u>-report and return it with your application.

UNCERTAIN. Speak to your intake coordinator.

The information will help Nimkee staff to understand your health care needs. There are no on-site staff with a medical or nursing background, though local off-site support may be available from the *Southwest Ontario Aboriginal Health Access Centre (SOAHAC)* on an as-needed basis.

How To Stay On Your Medication While In Residence

All medication (including those available over-the-counter) and related supplies will be kept in a secure area by Nimkee staff and will only be dispensed for observed self-dosing according to the prescription. **NOTE**: Always bring critically important medications (such as an Epi-pen or a rescue inhaler), even if you do not use them often and even if you think you will not need them.

There are a couple ways to stay on your regular medications while in residence:

OPTION 1 - BRING EVERYTHING

Arrange with your home pharmacy to dispense enough medication and related supplies to cover your entire stay in residence, if possible. (Note: most insurers will only allow dispensing of 90- or 100-days' worth of medication at a time, so this may not always be possible depending on when it was last dispensed.) Bring everything with you <u>in its original packaging with labels from the pharmacy</u>. Staff will store your medications on arrival.

OPTION 2: TRANSFER YOUR PRESCRIPTIONS

If you do not arrive with enough medication and related supplies to cover your entire stay, Nimkee staff will assist you to contact your home pharmacy to have the balance of your prescriptions transferred to the local pharmacy:

CDS Pharmacy in Mount Brydges tel 519-289-264-2000 fax 519-264-2396 (When you return home, you will need to contact your home pharmacy to have any remaining balances transferred *back from* CDS Mount Brydges.)

Nimkee Nupigawagan Healing Centre - MEDICAL INFORMATION PACKAGE MEDICAL REPORT – to be completed by your primary care provider

Dear Primary Care Provider,

Your patient is applying to attend Nimkee Nupigawagan Healing Centre's program for youth with substance use disorder (or those at high risk). We are requesting medical information so that we can provide your participant with safe care during their stay of up to 12 weeks. (Please note: If your participant is younger than age 18, a medical assessment within 30 days of arrival to residential care is REQUIRED by the Ministry.)

CARE WHILE IN RESIDENCE Nimkee is a non-medical healing centre. There are no on-site staff with a medial or nursing background. Local off-site support may be available from the *Southwest Ontario Aboriginal Health Access Centre (SOAHAC)* on an as-needed basis.
